

130+ YEARS OF EXPERTISE

Our roots

Our roots date back to the 19th century when in 1889 Hippolyte Dumont opened a factory in Belgium. In just over a century, our family owned company spread internationally: first to France in 1926 on the impetus of the founder's son-in-law, Léon Lhoist. During decades, the fourth generation of shareholders consistently pushed the business further under the leadership of Baron Berghmans, the company's current Chairman. In the eighties, the Group crossed the Atlantic to the United States. The nineties offered significant development opportunities across Western and Eastern Europe, in Germany and Scandinavia. Our horizons broadened even more in the new millenium with expansion in Southern Europe, Latin America, and Asia.

Respect, Integrity, Courage

Our values are at the heart of our culture and constitute the basis for everything we do. They have enabled us to reach the top of our industry and are the key to help us maintaining this position in the long term.

Today

We are a world leading producer of lime, dolime and minerals. We continue to grow, with a focus on existing and emerging customer needs, we invest in new facilities and in the development of innovative products and solutions.

80 countries
supplied

From
over **135** sites
around the
world

Minerals: Limestone, Dolomite, Clay and others

Calcined products: Quicklime (pebble, ground, milled),
Burnt dolomite (soft-/hard-/over-burnt), Hydrated
lime

Safety First

At Lhoist, safety and health are embedded in our core values. While our reserves and facilities represent significant assets, our most important resource is our people.

A long-term vision

We put people and our planet's needs at the forefront of what we do. In close partnership with our customers, suppliers, and stakeholders, we always question how we can add value and make a positive difference to people's lives, and the planet at large.

Our products and their various applications provide purity and efficiency and contribute to improve our world, life and society. Our limestone and lime-based products enable solutions that are essential to a wide range of processes, and benefit all of us in our daily life.

People matter

Our employees' ongoing efforts to innovate and seek out new opportunities as well as their achievements, have brought our global success and growth.
