

LEVEL | BLUE®

**OUR
SUSTAINABILITY
OFFER**

ABOUT LEVEL|BLUE®

The new product line LEVEL|BLUE® from Lhoist. The world's first climate-neutral products in our Industry!

As the world market leader with a clear pioneering claim, we have made a pioneering decision and developed LEVEL|BLUE®.

LEVEL|BLUE® includes all products that are already reducing the CO₂ footprint - not only our own, but primarily that of our customers.

We have achieved this sustainable reduction through intelligent concepts, efficient measures and passionate commitment. Now you have the opportunity to become active and take responsibility to improve your Scope 3 balance with LEVEL|BLUE®.

CO₂ AVOID

CO₂ REDUCE

CO₂ COMPENSATE

The calculation of our carbon footprint is based on the internationally recognised Greenhouse Gas Protocol (GHG Protocol). Accordingly, we include all emissions at our locations.

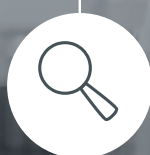

To obtain accurate and reliable data and to support only certified climate protection projects, we work with an external partner. You receive a certificate from us that measurably proves the climate neutrality of your LEVEL|BLUE® product.

SUSTAINABLE PARTNERSHIP

SUSTAINABLE PRODUCTS

SUSTAINABLE SOLUTIONS

SUSTAINABLE SUPPLY

OUR OFFER FOR SUSTAINABLE SOLUTIONS

LEVEL|BLUE[®] QUICK-CHECK

- Four-hour product and process consultation with our experts on site.
- Potential analysis with initial concrete optimisation proposals, e.g. on:
 - **Product:** Which is the right product for you?
 - **Process:** How can your production processes be optimised?
 - **Supply:** How can your supply be improved?
- Following our analysis, you will receive an individual results report with our suggestions for improvement.

Price: € 2.990 excl. VAT

LEVEL|BLUE[®] DEEP-DIVE

In-depth analysis of identified potentials, based on the initial consultation, with the aim of clear and prioritised recommendations for action. Based on this, we create a concrete implementation plan for you.

Price on demand

LEVEL|BLUE[®] LEVEL-UP

Organisation and support of the implementation of identified potentials by our experts.
